School of **Veterinary
Medicine and Science**

**THE AGENDA FOR THE UNIVERSITY OF NOTTINGHAM, SCHOOL OF
VETERINARY MEDICINE AND SCIENCE, THIRD IRISH WOLFHOUND AND
DEERHOUND BREED HEALTH SEMINAR – FEBRUARY 23RD 2019**

**VENUE – The School of Veterinary Medicine and Science, Sutton Bonington Campus,
University of Nottingham, LE12 5RD**

9.00-9.30am

Registration, tea, coffee and refreshments

Welcome for the delegates to the School of Veterinary Medicine and Science, University of Nottingham. **Mark Dunning**

9.30-11.00am

Small group discussion sessions for delegates to review the problems identified at previous meetings, whether there have been any new problems identified in the breeds since the last meeting and also any problems they have encountered in their own dogs and particularly how they feel the current projects are running. **Discussions facilitated by the Staff and students from the vet school.**

11.00-11.20am

Tea, coffee and refreshments

11.20-12.00

Owner presentations of their health experiences with the breed, past and present.

12.00-1.15pm

Presentations by clinicians and researchers at the School of Veterinary Medicine and Science:

- An update on the current projects being run with the groups and future perspectives including new GDPR guidelines – **Mark Dunning**
- An update on the osteosarcoma treatment survey – **Emily Holdsworth**
- An update on the AF and thrombus project – **Lowri Hesletine**
- The genetic factors influencing canine bone cancer – **Nigel Mongan**

1.15-2.15pm

Lunch and informal discussions about breed health
Tours of the School of Veterinary Medicine and Science

2.15-3.15pm

Group discussion drawing on the health problems highlighted during the morning sessions and the projects that are currently running. Finishing with a wrap-up session to review the current projects and possible new projects moving forwards into our Fourth year of work.

(discussion between attending clinicians, researchers, students and the audience)
